

Congratulations! 2018 District Champions

Congratulations on Regional play!

High School News Advanced Manufacturing Day

On Friday, Oct. 5, Advanced Manufacturing Day, Manchester welcomed students from all three Delaware County Schools. Twenty-four Ed-Co students learned about Rockwell Collins, XL Specialized Trailers, and Henderson Manufacturing from passionate tour guides with an overflowing pride for their companies. There are dozens of awesome jobs waiting for our students' right here in Delaware County. Thank you to all who made these tours possible.

Yearbook News

The theme for the 2018-2019 yearbook is "Gold from Every Angle". Price is \$25 if purchased by 12/31/18. \$35 after Jan. 1, 2019. Order forms are available in the high school office and outside Mrs. Meyer's room.

Parents of seniors, make sure to get a senior photo to Mrs. Meyer by January 11th and senior ads are available for purchase, but must be purchased by March 15th.

FFA news

On Tuesday, Oct. 9, Ed-Co FFA had two teams compete at the Kirkwood livestock judging. The teams finished 30th and 2nd overall. Nathaniel Gaul was top individual and the Ed-Co team also took 1st in sheep judging.

National FFA Convention Oct. 24-27

Noelle Kerns, Mariah Hummel, Madison Hummel, Charlie Ehlers, Brenden Pape, Hunter Thompson, Cameron Knipper, Nathaniel Gaul attended the National FFA Convention October 24-27 in Indianapolis, IN.

What's happening in Mrs. Wille's World?

7th grade life Science

Is a candle living or nonliving? Ask a 7th grader to explain!! We have been studying spontaneous generation, the characteristics of life and what is needed to sustain life. Our next unit of study will take us into the cell. We will discuss different kinds of cells, organelles in cells and the functions of those organelles.

9th grade physical science

Freshman have been discovering the differences between speed, velocity and acceleration. We talked about what it means to accelerate. Over the next several weeks we will move into studying each of Newton's laws of motion. Right now we are exploring inertia and acceleration due to gravity. We

will do lots of fun experiments while exploring Newton's laws like dropping a ball to hit a target, racing cars and making balloon rockets.

10th grade chemistry

Sophomores have been discovering that the periodic table is a powerful tool when discussing atomic structure. All of what we have learned about atomic structure will be applied as we continue studying bonding. We will discuss why atoms bond, how they bond and how to determine the type of bond holding a compound together.

Advanced chemistry

Stoichiometry has taken on a whole new meaning to these kids!! As sophomores these students did basic molar conversions but now they are using those calculations to predict limiting reactants and amount of product produced. What is the limiting reactant when 0.5 grams of aluminum and 3.5 grams of copper II chloride dehydrate react? How much copper will be recovered? These students will be conducting an experiment to find out!

Seventeen Ed-Co FBLA members traveled to the United Fall Leadership Conference (UFLC) in Des Moines October 21 & 22. Time was spent hearing from national keynote speakers, attending workshops, and networking with students from the two other business student organizations across the state - BPA and DECA. The banquet meal included basic etiquette and manners lessons followed by a "fun night" of entertainment including a Brian Imbus hypnotist show, dance, and game room. Finally, the trade show booths set up on Monday offered careers, fundraising organizations, information to take, colleges/scholarships, etc

News from Mrs. Lange

I can't believe we are almost done with the first quarter of the school year already. It feels like only a week ago we started. The 7th-9th grade math classes are off to a great start for the year. The 7th graders have adjusted well to being in a new school building, and to having all new teachers. We are excited to see what the year holds. The first few days of math were spent getting to know each other, outlining what would be learned this year, reviewing some 6th grade topics, and we have just recently finished our first unit. It may seem like it took us quite a while to get through, but we are starting off with some brand new concepts for them. They include: learning about negative numbers: how to work with them, what negative fractions and decimals are, ordering these numbers, and will move to adding, subtracting, multiplying, and dividing them. Our next unit, we will begin working with variables and solving equations. The 8th graders are excited to be back, and we were able to jump in to our first unit almost right away. They learned about square roots of numbers, and how to classify a number as rational or irrational. They took this knowledge into learning about the Pythagorean Theorem. We are now wrapping up our second unit on solving equations. Much of it was review from last year, but we also introduced some new and more challenging problems as well. Finally, the freshmen have been cruising right along. We breezed through our first unit on working with rational and irrational numbers, solving equations, and now solving inequalities. We are taking all the things we learned in junior high a step further.

Mathematical Matters

by Mr. Hamann

Learning is once again in full swing in the math department, and students are eagerly working on their learning targets in class. Much like previous years, the students work hard at practicing with these topics, doing homework and formative assessments, before their progress is tested on a summative assessment. For those of you who have not yet asked their math student about topic currently being studied, here is a glimpse into what each of my 1st semester classes is tackling.

The students in **Algebra 2** have been reviewing some basic solving techniques and are working hard on creating equations that describe relationships. They

are also spending time interpreting the structure of expressions and practicing their evaluating skills.

Algebra III students have been working hard on the topic of rational functions and their structure. This class tends to be very intensive for students as the targets we lay out for them are advanced, requiring a deeper level of thinking, but both sections of this class seem up for the challenge.

This semester has 2 upper-level math offerings that are challenging our juniors and seniors. **Pre-Calculus** is a semester long class emphasizing topics that advance beyond the Algebra previously learned while also exploring topics that prepare students for the rigors of college math. We are in our second year of teaching **Statistics**, a topic that many students bound for a post-secondary institution will likely face. We felt it was wise to give them the basics of statistics to give them success later on, so this course is geared for any student who has completed our regular math progression. This course is offered both first and second semester, and they are currently learning about bivariate data and the relationship between correlation and causation. **Calculus** will again be offered, but as a second semester class. This is a logical choice for students wanting to pursue a post-secondary education in the hard sciences and engineering fields.

News from Mrs. Thier

In 7th grade Social Studies, we just finished a unit on learning how groups of people interact with each other and inequalities in our society. To learn about these topics we looked at the events that went on during the fight for civil rights. The students were shocked to learn how some people could be so cruel during this time period.

The 8th grade Algebra students are off to a great start this year. This is the first year I am teaching this class. The students in this class are a very talented and hardworking. We are currently learning about inequalities and how to simplify them.

News from Mr. Calderwood

The High School Choir will be attending the Tri-Rivers Conference Vocal Festival on Nov. 13 which will feature the mass choir at 7pm in Central City.

The fall musical this year is "Snow White and the Prince" by Janet Yates Vogt and Mark Friedman. Performances will be at 7:30pm in the Edgewood Gym on November 3rd & 4pm on November 4th.

SNOW WHITE and the PRINCE

Book, Music and Lyrics by

JANET YATES VOGT AND MARK FRIEDMAN

"SNOW WHITE and the PRINCE" is presented through special arrangement with and all authorized performance materials are supplied by Theatrical Rights Worldwide, 1180 Avenue of the Americas, Suite 640, New York, NY 10036. (866) 378-9748 www.theatricalrights.com

CONTINUOUS NOTICE OF NONDISCRIMINATION

Code No. 102.E2

It is the policy of the Edgewood-Colesburg Community School District not to discriminate on the basis of race, color, national origin, sex, disability, religion, creed, age (for employment), marital status (for programs), sexual orientation, gender identity and socioeconomic status (for programs) in its educational programs and its employment practices. There is a grievance procedure for processing complaints of discrimination. If you have questions or a grievance related to this policy please contact: Karla Trenkamp, District Equity Coordinator, 409 East Street, Colesburg, IA 52035, 563-856-2415, ktrenkamp@edge-cole.k12.ia.us

Student of the Week

Week of Oct. 1-7 Katie Snook

Addy Kirby, *Ed-Co Echoes*

Mrs. Kintzle has selected Katie Snook, a senior, as Student of the Week. Katie is a peer tutor in Mrs. Kintzle's eighth grade class. "Katie has really stepped up and done a great job helping me and working with my students so far this semester," said Mrs. Kintzle. Congratulations, Katie!

Week of Oct. 8-14 Damion Harbaugh

Mia Kelzer, *Ed-Co Echoes*

Mr. Wright has chosen an 8th grader, Damion Harbaugh, for Ed-Co's Student of the Week. According to Mr. Wright, "Damion does an outstanding job in P.E. He is a great teammate, always comes ready to go, and works extremely hard. He is a pleasure to have in class." Congratulations, Damion.

Week of Oct. 15-21 Kiernan Hansel

Emma Phelps, *Ed-Co Echoes*

Mr. Kleis selected Kiernan Hansel, a freshman, as Student of the Week. Kiernan is in his Spanish I class this year. Mr. Kleis noted that Kiernan

regularly participates in class and makes good choices. He also said, "Kiernan always stays on top of vocabulary." Congratulations, Kiernan.

Week of Oct. 22-28 Caden Cole

Ellie Bockenstedt, *Ed-Co Echoes*

Caden Cole was chosen by Mrs. Lange for this week's Student of the Week. Caden is in Mrs. Lange's seventh-grade math class this year. Mrs. Lange said that she chose

Caden because, "He gets all his work done, helps his classmates really well when they need to be helped, and that he is just succeeding in math."

Congratulations, Caden and keep up the good work.

Week of Oct. 29-Nov. 4 Noelle Kerns

Dayanaira Cornwell, *Ed-Co Echoes*

The Student of the Week is Noelle Kerns. She is the only student in Desktop Publishing class, which is the class that creates the yearbook. Mrs.

Meyer said, "Despite this, Noelle has been working extra hard on getting our sponsorships for our book, taking photos, and designing pages without me asking her to do so." Noelle is a senior this year, and she also is always nice to everyone. Congratulations, Noelle, keep being a good role model!

The Sophomore Class Celebrates "Pumpkin Day".

The sophomore class studied the short story, "Sound of Thunder" by Ray

Bradbury. The story is about time travel and teaches the lesson that we should not mess with the past because the past determines our future. In the story a gentleman steps on a butterfly while he is in the past, and this one incident drastically changes the world's future.

Elementary News

On October 3rd, elementary students and staff participated in The Iowa Healthiest State Initiative by taking a walk around Colesburg!

5th & 6th Grade Program

The Dimes, Dollars & Decisions program was presented to the Ed-Co 5th and 6th grade classes by Kevin and Makyla on October

16th. The program emphasized credit and debit, taxes, insurance and saving money. More information for students and families is available at NTCplayworks.com/money. The program is sponsored by the Iowa Insurance Division.

Red Ribbon Week Dress up

Family Reading Night-Oct. 29

Mornings can be really crazy...the alarm doesn't go off...the kids don't want to get up...there's no time to eat breakfast before the bus comes...or they're just not ready to eat. Or maybe your teenager grabs a can of soda and a candy bar on the way to school. If this sounds like your house, we have good news for you.

Breakfast is served at school! School breakfast will energize your child's day and provide them with a healthy start. A nutritious breakfast helps students be more alert so they can learn more in class, and has plenty of vitamins and nutrients for a strong and healthy body.

Breakfast at school is affordable, too. The cost is only \$1.60. If you qualify for free and reduced price meals, you also qualify for the breakfast program, with no additional paperwork. You can't find a healthy breakfast at such a low cost anywhere else.

So help your child start the day right with school breakfast!

News from Mr. Sorn

Wow! We are already one quarter though the school year. Second grade has had a fantastic start to the year. There is a ton of energy and excitement from the kids this year. I am proud to

say I have seen The Seven Habits, which we worked on last year and this year, produce some engaging leaders not only in 2nd grade but throughout the school.

In my class we have done a mini-lesson on reading map skills and created a map of Iowa. With our literacy time we have worked on identifying main ideas and analyzing character traits. We also explored the ocean through a great reader's theater about Jacques Cousteau. Math is going well and the kids are eager to get their hands on some science experiments in the upcoming weeks.

We all have a lot to be looking forward to as the year continues in 2nd grade at Ed-Co Elementary.

News from Mrs. Schulte

It's unbelievable that the first quarter of school has already come to a close! We have been working hard and having fun doing it in fourth grade! In Math, we are working on multiplying multi-digit

numbers using a variety of strategies. Since we all learn and think differently, we learn different ways to do problems (as we always have) and then each

individual chooses the way he/she likes best going forward. In literacy, we have been focusing on the main idea of texts, sequence of events, features of a biography (students read biographies of important people and made posters to share with the class and display), and features of personal narratives. With mid-term elections this month, Mrs. Schulte's social studies students have been learning about the basics of our government and elections and even participated in the Iowa Youth Straw Poll! In science with Mrs. Lenz, 4th graders wrapped up learning about electricity and conductors/insulators and are moving on to magnets and making an electromagnet! We will see you at conferences on November 7th or 8th to learn more about how your child is doing in fourth grade!

News from Ms. Frazier

Hello from Preschool!!!

We have had a great start to the school year so far!!!! In my classroom, there are 12 students, and 14 students in Mrs.

Askeland's preschool classroom!!!!

At this time, we are doing a study on pumpkins!!!! The children are learning all about pumpkins using literacy, math, science, cooking, exploring and doing a whole lot of hands on activities!!!!

We will be talking about the life cycle of a pumpkin and doing a pumpkin investigation where the children describe and predict information about our class pumpkins next week!!!!

We have our Halloween party coming up on Wednesday, October 31st where we will play some games, eat yummy snacks and then to end our party, we will get to show off our wonderful costumes to the whole school up at the gym!!!!

We have become Preschool Leaders at the elementary!!!! We have talked about all the 7 Habits for Leader In Me. We will be having a 7 Habits celebration in honor of talking about each Habit on Thursday, November 8th. For our celebration, we will be putting on a little program for our book buddies. We will say the Viking Pledge, sing the 7 Habit songs, and announce each Habit.

If you want to come and visit anytime, please come on in, and see what fun we have in preschool!!!!

Elementary Technology by Ms. Johnson

A few weeks ago I went to a great workshop at Keystone centered on PBL. PBL stands for Project Based Learning. PBL has students solving a real-world problem or answering complex questions. Students develop deep content knowledge as well as critical thinking skills while doing authentic, meaningful projects. The students are focusing more on the "how" to answer the problem and the steps they need to take to complete to get their end result, rather than just focusing on the end result right from the beginning.

In 6th grade we are currently working on a PBL Project and I really enjoy seeing how excited the students are. The students are able to pick from a list of topics. The topics are: Cellphones in School, Homework in School, Cursive Writing in School, and School Uniforms. Students are researching the topic they chose and using evidence to support both sides. At the end of the project students pick a stance on the issue they chose, while using their research and data to support it. At the end of the project students will publically display their findings through posters and/or presentations. We are just in the beginning stages of this project...stay tuned!

News from Ms. Slight

It has been a great start to the 2018-19 school year in elementary Physical Education. I always try to start the year off with different team building activities to show the students how important it is to work together. This year the K-2nd grade has been working on jump roping, underhand throwing and different locomotor movements. The 3rd-5th grade has been working on overhand throwing while using a football. The students love the football unit and have high hopes to be as good as the football team this year when they get to high school. The next unit we have planned for 3rd-5th grade is volleyball.

Viking of the Week

Week of Oct. 8-14 Reece Brown

Morgan Vorwald, *Ed-Co Echoes*

Reece Brown was chosen by Mrs. Askeland for Viking of the Week. Reece is a preschooler in Mrs. Askeland's class.

His family includes his parents, Nick and Megan, along with his brother, Cooper, and one dog, Rigsby. He enjoys coloring, farming, playing with blocks, and playing ice cream shop. Reece's favorite

part about school is having a book bud because he likes to read. He helps others in school by being good and helping them play. Reece said he felt good about being chosen as Viking of the Week. Congratulations, Reece.

Week of Oct. 15-21 Mclane Mormann

Morgan Vorwald, *Ed-Co Echoes*

The Viking of the Week is Mclane Mormann, a kindergartener in Mrs. Ludovissy's class. Mclane's family includes his parents, Mikha and Glen,

and his brothers, Max and Miles. He has two pets, Pepper and Gemma. Some of his favorite hobbies include playing with tractors and tag. Mclane's favorite part of school is playing with toys and reading books. He helps others at school by helping them clean up. Mclane said he felt good about being chosen as Viking of the Week. Nice job and keep up the good work Mclane!

Week of Oct. 22-28 Jenna Yest

Morgan Vorwald, *Ed-Co Echoes*

The Viking of the Week is Jenna Yest, a first grader in Mrs. Tegeler's class.

Jenna's family includes her parents, Matt and Shelley, and her 3 siblings, Reece, Jordan, and Jeven. She has one cat named Hope. Some of Jenna's favorite hobbies include playing outside, soccer, and gymnastics. Her favorite things about school are reading, because it makes her smarter, and math, because it is easy. Jenna helps others at school by others with reading or finding a word. She said she felt happy when told about being Viking of the Week. Keep up the good work, Jenna!

Week of Oct. 29-Nov. 4 Josie Diers

Morgan Vorwald, *Ed-Co Echoes*

The Viking of the Week is Josie Diers, a second grader in Mrs. Brouillette's class.

Her family members are Will, Amanda, and Jared. She has one pet, a fish named Bubbles. Josie likes art and playing basketball and baseball. Her favorite thing about school is P.E. because they play tag. Josie helps others at school with being quiet. She said she felt happy when told she was Viking of the Week. Keep up the good work, Josie!

COURTESY AT EXTRA-CURRICULAR EVENTS

We are looking forward to excellent extra-curricular events at Edgewood-Colesburg. We share the responsibility

for appropriate behavior at the activities. For the safety of all spectators and support of the participants, the following are Ed-Co's expectations.

- Be respectful and quiet during the national anthem. Hold your right hand over your heart.
- Watch the game.
- Visit with your friends.
- Demonstrate good sportsmanship, be respectful and courteous to others; Support the teams, cheer and clap.
- Be a positive credit to your family, school and community.
- Leave your seat only between quarters, at half time and between game

District News

From Superintendent Rob Busch

As the saying goes, "It takes a village to raise a child." If you are interested in helping out, we are always in search of people that would like to be mentors for kids, people that can assist kids at the

elementary with reading skills, and assist at activities. We are specifically looking for community members that would be willing to help us with bus duty for a few minutes in the morning and/or afternoon. You can do 1 day a week if you want! Please contact one of the offices if you are interested in any of these roles.

The weather is changing, please send your child to school with the proper clothing for going outside to play. It is very important for you to label your child's clothing so that if it is lost we have a chance to return it to the rightful owner.

Please remember that the best way to be notified of school early outs or a school cancellation is by signing up for text notification. To sign up for elementary messages text @edcoe to 81010. For secondary messages via text, text @edcoh to 81010. It is also sent out to some of the local radio and TV stations, so please stay aware of those school alerts.

Buses leave the elementary at approximately 3:18; students who walk home or get picked up by parents are dismissed after that time. Please make sure your child knows what they are doing each day by sending a note to school if they are doing something different

than their normal routine. Remember we are teaching and working every possible minute of the school day. Unless students have an appointment please do not pick your child up early, this will give them full opportunity to learn and complete needed work here at school. Our school day ends at 3:15. Ed-Co Elementary is a school-wide Title I school allowing for Title I teachers to work with all elementary students. All teachers at Ed-Co Elementary meet the highly qualified requirements under the Title I guidelines. The teachers in our elementary have earned either a Bachelor's degree or a Master's degree in elementary education. You may check on a teacher's license at <http://www.boee.iowa.gov/>

A couple of years ago Congress enacted the Every Student Succeeds Act (ESSA), which replaces No Child Left Behind. ESSA requires that states develop plans to address standards, assessments, school and district accountability, and special help for struggling schools. The Iowa Department of Education just submitted Iowa's plan. More information is available at www.educateiowa.gov

If you have concerns or questions about your child's school performance, please contact the school staff involved. We are here to provide the best learning environment possible. Thank you for allowing us to educate your children this year. As always, I ask that you please become involved with the educational opportunities for our young people and assist us in making Edgewood-Colesburg the best school in the State of Iowa. I thank you for taking the time to read these articles as we proceed through a very exciting 2018-2019 school year. If you have ideas for improvement or areas of concern, please contact me by phone at 856-2415 or e-mail at rbusch@edge-cole.k12.ia.us.

Your Partner in Education,
Rob Busch

Use of Recording Device Notice

The Edgewood-Colesburg Community School District Board of Directors has authorized the use of recording devices on school premises and district buses. The recording devices will be used to monitor student behavior to maintain order and to promote and maintain a safe environment. Recordings of students in the classroom will also be used to improve educational practices. Students and parents are hereby notified that the content of the recording may be used in a student disciplinary proceeding. The content of the recording are confidential student records and will be retained with other student records. Recordings will only be retained if necessary for use in a student disciplinary proceeding or other matter as determined necessary by the administration. Parents may request to view the recording of their child if the recordings are used in a disciplinary proceeding involving their child. A parent may view the recordings without consent from any student or parent of a minor student also shown in the recording if the other students are bystanders. But if there is an altercation between multiple students, then all parents must give consent in order for the recordings to be viewed by parents.
