

Drop off/Pick up Reminder

People dropping off and picking up students are not to park on the south side of Highway 3 or in the Woods Edge golf course parking lot. Also there is no parking adjacent to the bus loading zone along and south of the bus garage. This will greatly improve safety by students not walking across the highway or between the buses.

There is also no parking in front the District office because it is now part of the loading zone. Where there are yellow diagonal lines this areas is for "Buses Only". No foot traffic or other vehicle traffic is allowed. In the mornings please drop off students at the north end of the loading zone (by the District office) so the students can walk the sidewalk along the east side of the buses and have direct access to the entrance doors. On the first day of school, look of the balloons that will mark the new drop off area by the district office.

For picking up students in the afternoon, please park north of the school building in the school parking lot (again not south of Highway 3). One more change is the parking lot has been converted to "ONE WAY TRAFFICE FLOW" at all times. Traffic flow will be from south to north. Enter off Highway 3 and exit by the swimming pool.

Morning shuttles leave at 7:55. Please have your students dropped off a few minutes prior to that time.

Thanks you to the staff, students and district parents for your help in implementing these changes for the safety of our children.

Upcoming Driver Ed Courses:

EDGEWOOD-COLESBURG - February 1 -28

The enrollment deadline for February's course is Sunday, January 17

Begin as early as February 1 and complete it by February 28. Course consists of 30-hour classroom at-your-own-pace to be completed within 10 - 30 days.

EDGEWOOD-COLESBURG - April 1 -30

Begin as early as April 1 and complete it by April 30. Course consists of 30-hour classroom at-your-own-pace to be completed within 10 - 30 days.

Register online at: www.rightwaydrivered.com

High School News

News from Mrs. Ehlers

Does Your Student Need Workplace Skills?

The concept behind Ed-Co Industries is nothing new. Various departments at Ed-

Co often team up on curricular projects for students to learn two sides of a real world topic. Those projects will continue under the parent company of Ed-Co Industries. When the Ed-Co Entrepreneurship class partners with the students in welding, the written business proposal for a winter decoration comes to life with the welders serving as a workforce.

Currently, it's the CTE (Career and Technical Education) departments at Ed-Co partnering in this type of hands on learning. In addition, Mrs. Bergan's Foods II students are working to produce holiday treats. All items produced will eventually be available for purchase. All of the workplace skills learned to create the products can be transferred into real life, such as soft skills and problem solving.

In addition to the CTE projects, Ed-Co Industries will also encompass work based learning experiences and career exploration. Follow us on Facebook at **Ed-Co Industries**.

News from Ms. Anderson

The goal in Ed-Co's secondary special education classroom is to close academic and social/emotional/behavioral gaps between students with disabilities and their peers. By using the high-leverage practices of collaboration, assessment, social/emotional/behavioral strategies and instruction we are trying to effectively educate students with disabilities. Professional collaboration occurs regularly between the general education and special education teachers to target student learning. Families also share a role in working together with the special education teacher to support learning. Multiple assessments broaden the understanding of a student's strengths and needs. The assessments allow teachers to analyze instructional practices and make necessary adjustments that improve student outcomes. Along with teaching social behaviors our classrooms try to establish respectful, consistent, and organized learning environments. Students receive positive and constructive feedback to steer their learning and behavior. At the secondary level, students are taught to self-advocate for their needs by learning to improve their communications skills with teachers. The students have been instructed in how to email inquiries to their teachers and respectfully ask for clarification. Another aspect of social/emotional/behavioral skills is teaching students to develop a growth mindset and understanding of resilience.

The evidence-based high-leverage practices guide the specially designed instruction (SDI) provided at school. SDI most often occurs in the special education setting but can be delivered in any classroom. It provides intensive, explicit instruction designed for specific learning goals, both short and long term. The strategies support learning for students with disabilities as it encourages independence while attempting to close the gap in skills. Student motivation is a huge factor in achieving growth. Our classrooms continually try to engage students in their learning using frequent feedback and opportunities for active learning.

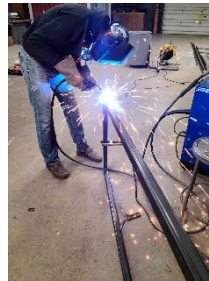

Edgewood-Colesburg Agriculture Department News- Mr. Wadsworth

This year has slowed down our FFA activities but not our classroom items. FFA was still able to get a few things in such as district soils and district livestock judging. Members also held award ceremonies and freshman members attended green hand fire up. Fruit sales were also held as our annual fundraiser.

In the classroom our animal science class was able to attend Honey creek dairy and see robotic milking machines and feeding systems. Our Ag Mechanics class was able to have guest speakers come in and teach us. We had guests from Masonry institute of Iowa and NICC construction come and teach our class. They also worked on building a 6ft by 8ft garden shed. Welding class partnered with our business department and has been in production stages for products for the

business classes to market and sell. Our landscaping class was able to complete a couple of landscape projects around the school facilities before it got cold out. The Ag Drawing class has been designing buildings and farms using CAD tools and even made farms utilizing Mine craft.

News from Mrs. Bergan

The 8th grade FCS students were busy in the kitchen labs with a sugar cookie project the last full week of school before Christmas break. Typically, the class makes and

decorates Christmas cookies as one of our labs just before the holidays. The students came up with an idea to make sugar cookie making kits for each of them to take home and enjoy as an activity with their family. Though it is unsure how many kits were eaten

before they actually made it home. Regardless, the students learned a lot of kitchen skills. They learned how to measure powdered sugar using a sifter, how to soften butter using

power levels in the microwave, how to cream butter and sugar, and the benefit of using a pastry cloth, and rolling pin cover while rolling out cookie dough. Lastly, they learned that a convection oven has many benefits when baking cookies; many trays can be baked at once with even cooking, more efficient cooking time, and that the faster baking time leaves the cookies soft on the inside yet crunchy around the edges. Believe me when I say it is a whirlwind of crazy to complete a lab with 20 eighth grade students in 41 minutes but the students prepared well, had fun and only a few were just a minute or two late for their next period class.

Winter Concert Mon. Dec. 14

Student of the Week

Kaitlyn Thein-Dec. 7-13

By CJ Drips, *Ed-Co Echoes*

This week Mrs. Bergan chose Kaitlyn Thein as her Student of the Week. She stated, "Kaitlyn is an 8th grader in FCS and comes to class ready to learn. Although she is a very social gal, she knows when to get down to business. She seeks out help and asks how she can prepare for exams better. Unfortunately, she is one of the many that has had to learn online. She has been a great communicator, keeping in touch via email, the classroom platform, and Zoom. You can tell she really wants to be in the classroom learning environment by the way she advocates for herself by requesting to Zoom into class. Beyond her own concerns, she shows compassion for her classmates and invites and helps them to study alongside her as she puts in the extra effort. You should be proud Kaitlyn, your hard work is paying off." Congratulations, Kaitlyn!

Ethan Staner-Dec. 7-13

Sophia Wilson, *Ed-Co Echoes*

This week's Student of the Week is Ethan Staner. Ethan was chosen by Mr. Millis. Ethan was in his environmental science class last quarter. "Ethan led the way when we were

gathering data for our final project," said Mr. Millis. "His attitude and curiosity made the course better for everyone, myself included." Congratulations, Ethan!

Jack Wiskus-Dec. 14-20

Mr. Wadsworth selected Jack Wiskus, a junior, as Student of the Week. Jack is in both his Animal Science and Welding classes. According to Mr. Wadsworth, Jack is a studious young man who always does his work thoroughly and turns it in on time. Mr. Wadsworth also noted that Jack is currently hard at work on a really cool welding project. Congratulations, Jack!

Mika McCool-Dec. 21-27

By Sophia Wilson, *Ed-Co Echoes*

This week, Mrs. Wille picked out our Student of the Week. She selected Mika McCool from her 10th grade Chemistry class. "Mika pushes herself," Mrs. Wille said. "She analyzes things first, then asks questions. She's a nice polite young lady." Congratulations!

Elementary News

News from Mrs. McCool

2020 has ended on a positive note in the world of Ed-Co Elementary's Special Education Department. Mrs. Jenna Wieneke has spearheaded a campaign resulting in the purchase of IXL licenses for special education students. IXL is an online program including reading, mathematics, science, and social studies that can be tailored to fill in gaps in students' specific learning needs as well as to offer additional reinforcement of Iowa CORE materials covered in general education classes. The appeal of online activities, along with the game format of immediate feedback, will hopefully increase the students' desire and motivation for such activities.

Also, with the change in Ed-Co's Return to Learn Plan, all students will have an equal opportunity to join in synchronous learning activities. For those students who chose the virtual learning option in the fall, this change will allow for them to more actively engage with their peers and teachers for greater lengths of time. Likewise, it will allow students in the brick-and-mortar setting to see their virtual peers more frequently and with greater educational intent. Ideally, this will increase student participation and result in more learning gains for all.

Mrs. Anderegg and Mrs. McCool continue to partake in a monthly class focusing on high leverage practices for special education students. Highlights from this fall have included learnings about collaboration, teacher efficacy, and instruction. Future topics include social/emotional/behavior strategies, engagement, and assessment.

Please continue to follow safety protocols and best wishes for a happy, healthy 2021 to you and yours from those of us in the special education department!

News from Ms. Huff & Mrs. Tegeler

Happy Holidays! We are continuing to grow and learn at school every day. It is so exciting to watch our firsties take off!

In reading, we are learning about sequencing. What happened first, then, next, and last? Asking your child these questions at home can really help their comprehension! Not only are we sequencing with books we have read, but we have also written a few recipes using the same concept!

In math, we have continued to work on addition and subtraction by practicing our math facts! Xtra Math is an online program that focuses on math fact fluency.

Additionally, we have also learned what the equal sign means!

Science is definitely a favorite in first grade! Recently, we have been discovering how the air around us influences different things. One of our most favorite activities has been parachutes! On a nice December day, we got to go outside and drop the parachutes from a high spot on the playground. That was so much fun!

We can't believe that 2020 is coming to an end! We can't wait to see what 2021 has waiting for us, and we wish you and your family a happy and healthy year!

News from Mr. Weber

The 5th and 6th graders have been doing a fantastic job in math so far this year. The 5th graders just finished working on multiplying decimals and will be working on dividing decimals next. Both 5th grade classes have come so far already and I'm excited to see what the New Year brings for them! The 6th graders are also hard at it. They just finished working with percentages and are starting to work on units of measure. Both grades have done a great job adjusting

to our new norms and not letting it affect their learning.

6th grade has been working extremely hard on their WIGs (Wildly Important Goals). They have reading WIG and a personal WIG. The 6th grade sets a goal of reading minutes to read by the end of the month and they work together to reach that goal. They also set a personal WIG to work on outside of school.

The intense war in our daily game of SET rages on. As of right now, Mr. Weber's class has the best SET time of the year at 2 minutes and 30 seconds. The all-time record belongs to Mr. Weber's 2019-2020 class with a scorching time of 2 minutes and 26 seconds.

News from Mrs. Streicher

December is flying by in kindergarten! We are having a great year. Here are some things we've been up to lately.

Math

We just finished learning teen numbers. We practiced recognizing each teen number, 1:1 counting, building the number with tens and ones, and showing it on a double ten-frame. This week, we moved onto 2D shapes and will be building upon that until Christmas.

Literacy

Last week, our focus was on characters, setting, and details in a story. The students did well with this. This week, we introduced comparing and contrasting, and read various Gingerbread Man books to dig into this topic. We will continue with comparing and contrasting next week.

News from Ms. Huber

We have been learning so much in second grade recently. We are wrapping up our math chapter on adding two digit addends. The students are really grasping the concept and enjoying our math time! In social studies we have been working on analyzing map features as well as discussing their purpose and how we use them. We have also been working really hard during reading to master our holiday reader's theaters. Before break we will be doing our Polar Express day. The whole day will be centered around the movie and book The Polar Express. Some activities we will do include analyzing story elements, writing a letter to Santa, comparing the movie to the book, and various math activities related to the story. Happy Holidays from second grade!

Viking of the Week

Emmarie Siebert -Dec. 7-13

Emmarie Seibert, a first-grade student, is Viking of the Week. She is in Mrs. Tegeler's class. Emmarie's family includes her dad, Ryan; her mom, Brandy; and her brother, Ryan. She also has a dog named Bambi and two cats named Rabbit and Peanut. She really likes jumping on the trampoline and swinging. At school, Emmarie loves math because it is fun, and she likes to learn. Emmarie was very happy to be chosen for Viking of the Week because she always helps others and asks kids who are being mean to stop. Congratulations, Emmarie!

Lainey McElmeel-Dec. 14-20

Lainey McElmeel, a second-grade student in Mrs. Priem's class, is Viking of the Week. Lainey's family includes her mom, Heather; dad, Jason; sisters Alayna and Allisa; and brother Jarin. She does not have a pet but if she could ever get one, Lainey would want a puppy. She enjoys playing football with her friends, riding bikes, and collecting rocks. Lainey's favorite part of school is math when she gets to break apart tens and ones to add. She was very excited to be chosen for this honor and always follows directions and helps others clean up. Congratulations, Lainey!

Connor Bailey-Dec. 21-27

Connor Bailey, a third-grade student, is Viking of the Week. Connor is in Ms. Wright's class. His family includes his mom, dad, and brothers: Carter, Canton, and Colin. He also has two cats and two dogs. Connor really enjoys dance, crafting, drawing, and coloring. His favorite class at school is art. Connor was very surprised when he was selected for Viking of the Week. He always follows directions and helps others with their math problems when they need help. Congratulations, Connor!

Grinch Sightings

Ms. Harbaugh bought a 6' cardboard Grinch to hide around the elementary. (Think elf on a shelf, but Grinchy). He sure did make his rounds!!

District News

Edgewood-Colesburg Community School Emergency School Closure Process

As the winter weather season is now in full swing, Edgewood-Colesburg Community Schools will continue to evaluate the process it uses to decide when to close schools due to bad weather and how to best alert parents and students about the closure. The district is aware of the implications of emergency school closures. We realize when schools shut down parents must make alternative plans, bus and food services must be altered, class and test schedules must change, and events must be canceled. We also feel strongly that our students' education can best be served when they are in class; however, safety is our number one priority. We will always do what is best to safeguard the well-being of our students and staff, but sometimes closing schools is not the obvious choice. The school district covers almost the width of an entire county. There have been times when the weather has changed, road conditions have deteriorated, or a storm has stalled over the area that a last minute decision has been made to close. These late decisions are made to protect our students and staff. There are many factors that are considered. The images of our bus drivers on slippery roads, of young children standing at frozen bus stops, and teens, or their parents, driving in hazardous conditions is always present when the decision is made to close schools. Once the decision is made, the Edgewood-Colesburg Community Schools must disseminate the message quickly to the media, staff, and parents.

You can obtain school closings, late starts, early outs, and cancellations at the following locations:

Text messages are available through Edgewood-Colesburg Community School Web Site at www.edge-cole.k12.ia.us and also the Iowa School Alerts program at https://public.govdelivery.com/accounts/IAEDU1989/subscriber/new?qs=CODE_RED

*Some stations get the information on faster than others. The best advice is to listen to more than one so our information is not overlooked.

Since parents are the primary protectors, they will need to decide what is best for their children regardless of any decision by the school district. The option to keep children home when weather conditions are extreme is always at the parents' discretion and the school understands and respects the decision. Parents can contact the school and arrange for an excused student absence. All families should make advanced arrangement for their children in case of school closures and for the rare situation when it is necessary to close school because of a power failure or another circumstance. Children should know where to go if a parent will not be home and how to contact parents and guardians. Make sure your parent contact information, including work telephone numbers, are kept up-to-date with the school.

During cold weather you should always make sure your child is dressed appropriately. Bulky coats and boots can be stored in classrooms, or other areas designated by the principal in addition to student lockers so don't be afraid to bundle them up. Working together we can ensure the safety of the Edgewood-Colesburg Community Schools during the hazardous weather season.

Notes from Tangee Sills, School Nurse

Cold weather is here, please make sure to send coats, hats, gloves, and if appropriate, boots and snow pants, to school with your children.

In the past, we have had spare warm clothing items for students to borrow during the cold months. This year, due to Covid-19, we will not have these things available because it wouldn't be safe. If you are in need of warm clothing for your student, please let either Mrs. Trenkamp or myself know.

If your student does not have appropriate clothing for the weather, they will not be able to participate in any of the fun during recess.

Thank you very much for your assistance ensuring the kids have a safe and fun winter at school.

News from Superintendent Busch

Happy New Year! Hope you are planning to make 2021 the best ever. As in most situations, a quality outcome won't be possible without a total team effort. The same is true in education. The bus

drivers ensure that students arrive to and from school safely each day. The cooks provide hundreds of healthy meals per day. The facilities are clean thanks to our custodial staff. The secretaries ensure the daily business needs are met. The teachers and support staff work to challenge the minds of our students. The administrative team maintains safe and orderly learning environment to support students. And without the students, families, and community that value education, it would not be all possible. As we begin 2021, I would like to thank all the members of the Edgewood-Colesburg Community School District team.

Wish I didn't have to keep writing about COVID-19, but since we will continue to deal with Covid-19, the district will emphasize: keeping our school clean; washing hands regularly; being diligent about mask wearing; socially distancing students as much as possible; and emphasizing safe and healthy measures to keep our school year moving forward. Please stay home if you are experiencing COVID symptoms.

I had never heard of a derecho before 2020, but there are other natural disasters the hit Iowa on a more regular basis. I would encourage you to review safety plans with your children. There are many different websites available for guidance: <https://www.ready.gov/plan> or <https://www.safety.com/create-a-home-safety-plan-for-your-family/>

I would also encourage you to review Internet security with your children. Information for discussion is available at <https://digitalempowermentproject.com/>

Another item I would ask you to discuss with your child is vaping. The Iowa Department of Public Health has put out information to help families with this discussion. <https://idph.iowa.gov/tupc/vaping-information>

As stated in the beginning of the article, education takes a team effort. With the Iowa legislative session about to begin, please sign up at www.promiseiowa.org to learn more about supporting public education. If you want to impact legislation, you can do that by becoming an advocate

for your school. Take a few minutes to contact our new legislators in the House and Senate, tell them you are a voter and you support equitable funding for rural schools! You can find your legislators and their contact information at www.legis.iowa.gov/legislators/find. I would also encourage you to contact Governor Reynolds's office by calling 515-281-5211 or leaving an email message here <https://governor.iowa.gov/contact>.

Thank you for allowing us to educate your children this year. As always, I ask that you please become involved with the educational opportunities for our young people and assist us in making Edgewood-Colesburg the best school in the State of Iowa. I thank you for taking the time to read these articles as we proceed through a very exciting 2020-2021 school year. If you have ideas for improvement or areas of concern, please contact me by phone at 928-6411 or e-mail at rbusch@edge-cole.k12.ia.us.

Your Partner in Education,
Rob Busch

EXTRA CURRICULAR EVENTS

We are looking forward to excellent extra-curricular events at Edgewood-Colesburg. We share the responsibility for appropriate behavior at the activities. For the safety of all spectators and support of the participants, the following are Ed-Co's expectations.

- Be respectful and quiet during the national anthem. Hold your right hand over your heart.
- Watch the game.
- Visit with your friends.
- Demonstrate good sportsmanship, be respectful and courteous to others; Support the teams, cheer and clap.
- Be a positive credit to your family, school and community.
- Leave your seat only between quarters, at half-time and between games.
