## **News from Mrs. Meyer**

### **Art News:**

The school year has started off great in the art department. This semester includes a variety of art courses, which is awesome. The courses being taught this semester are Digital Photography, 2D Art, Graphic Arts I/II, and eventually 7<sup>th</sup> Grade Art. Currently the 7<sup>th</sup> grade students are working on learning how to use their MacBooks. They will be learning various programs and learning the basics of coding in HTML with Mrs. Diane Meyer. Digital Photography students are working through lessons to help them learn how to use DSLR cameras and to take high quality photos. Watch for their work to be on display in the lower hallway and in the commons. At the end of the semester, they will have a portfolio that showcases all their work from the semester. 2D Art students have completed their first project, which was a pencil drawing. They were given a few different options as starting points for their ideas. They had make sure to use pencil techniques, the elements and principles of art, and creativity. These projects are currently on display in the commons. We are working on doing a drawing with colored pencils and will work with other various materials the rest of the semester. The Graphic Arts I/II students have completed lessons in Photoshop/Illustrator and they designed Homecoming buttons for the Art Club. They will be designing the Fall Musical Posters as well as finishing lessons in their books the rest of this quarter. Second quarter will be project based where they will apply

their skills they've learned to projects for the school and community. Have a project we can do? Please let Mrs. Melissa Meyer know!

### **Art Club News:**

WOW.... we have some great members this year with 45 students signed up for Art Club. Many 7<sup>th</sup> grade students have decided to join this year, which is awesome. We completed 10 driveway paintings this year, which helped us raise around \$300 after the cost of supplies. Thank you for those who purchased one. For Homecoming, Art Club created buttons, provided face painting to students, and participated in the parade. We also had some members paint the extra business windows up town for the week. High school members will be going on a trip this spring to Milwaukee, where they will visit a few different art museums. Other upcoming events will be face painting at PINK Night and doing Christmas crafts during the Christmas in Edgewood celebration. We will continue to work on making our schools and community more inviting and artsy through murals and projects. Do you have a project you want done? Or an idea you'd like to share? Please let us know!

### **Yearbook News:**

We have seven students working on the yearbook this year during Desktop Publishing. Each member had to design a cover idea. The one that was selected for this year is called "Better Together". We will be working on communication and marketing skills coming up as they will be required to seek-out sponsors for this year's book. Sponsors help keep the cost of the book down for students and it helps provide funds for cameras and equipment. The rest of the semester will be focused on designing the layouts for the book and taking photos during various school events.

**Senior Parent Reminders:** Seniors need to get senior portraits into Mrs. Melissa Meyer by Jan. 10<sup>th</sup>. Please make sure your son/daughter has their photos taken and that they are emailed to Mrs. Meyer. If for some reason budget is an issue, we can make arrangements to take photos (for free) for your son/daughter. Also, senior ads are due to Mrs. Meyer by March 20<sup>th</sup>. Watch for a letter to be sent in regards to Senior Ads this fall. Senior Ads do include a yearbook so there is no need to purchase a discounted yearbook if you plan on ordering a senior ad. Those that have already purchased a book will get the Senior Ad for \$20 less.

Make sure to get your 2019-2020 "Better Together" yearbook ordered today! Yearbooks are on sale right now for \$25 until 12/31/19. Orders can be given to the high school office or you can order your book online at [edcoyearbook.com](http://edcoyearbook.com). If you have any yearbook questions, please contact Melissa Meyer at [mmeyer@edge-cole.k12.ia.us](mailto:mmeyer@edge-cole.k12.ia.us) or by calling the school at 928-6412.

### **News from Mr. Weber**

We have had a fantastic start of the school year! The 5<sup>th</sup> and 6<sup>th</sup> graders have been working really hard in math class. The 5<sup>th</sup> graders are working on place value, multiplication, and expressions right now. They are getting ready to take their first test of the year and I think they are ready for it. This group has been learning fast and have caught on to concepts quickly. I'm excited to see how the rest of the year goes for them! The 6<sup>th</sup> graders are also in the swing of things. They are currently working on whole numbers and decimals. They've also learned about

least common multiples and greatest common factors. This group has been a blast to work with so far!

We have begun doing “lead time” on Mondays, Wednesdays and Fridays from 8:30-8:50. This ties in with The Leader in Me program we have been doing the last few years. This lead time focuses on building skills in our students like leadership, responsibility, accountability, problem solving, adaptability, communication, initiative and self-direction, creativity, cross-cultural skills, and teamwork. The intense war in our daily game of SET rages on. As of right now, Mr. Weber’s class has the best SET time of the year at 2 minutes and 36 seconds. The all-time record belongs to Mrs. Ramsey’s 2018-2019 class with a scorching time of 2 minutes and 33 seconds.

### **News from Mrs. George**

We are off to a great start in the Elementary Art Dept. Because our students change so much over the summer, all grades are focused on creating their self-portrait for display in our building. We talk about how all artists have created their own self-portrait image in the style of Realism, Impressionism, Cubism, and Surrealism. After hearing the story, Picture Perfect by students at Fletcher Walker Elem. in Westwood, California, the first graders did their first preliminary sketch in their new sketchpads of themselves. Using handheld mirrors, their goal was to draw their face and neck including all of their facial features. We talked about how the word “trait” is in the word “portrait”. Our traits are unique to us and that’s what makes each of us different and special.

Our second graders are creating a self-portrait image using blue paper and blue jeans. We call this mixed media project “Blue Jean Kids”. They will be on display in the atrium. The third graders are learning about “Cubism”. Their projects will emulate work done by Pablo Picasso. In fourth grade students are creating an actual size image of their face and shoulders with the style of Realism, using pencil,

marker, and crayon. These images will appear in the foreground of their projects, the background will show their favorite place to be. These portraits will be displayed with the caption, “Future Leaders”.

The fifth grade self-portrait images will be of themselves blowing a bubble with their favorite flavor of bubblegum. The eyes and cheeks will reflect stress or energy needed to make the bubble. The style will look cartoonish or Surreal. Finally our 6<sup>th</sup> grade self-portraits will be a 3-D image of themselves from head to toe. This small mixed media project will be used to decorate their tree in the Elem. Tree Festival in December. Inspiration for this project comes from the song, I’ll Be Home for Christmas. These projects will emulate puppets from the Victorian Age.

As always, we welcome donations of blue jeans, unwanted craft supplies, buttons and fabric. Keep us in mind when you are cleaning out your craft room or grandma’s attic!

### **News from Mrs. McCool**

Miss Pasker, our student teacher, and I are excited about the start of the new school year. Following the community building First Eight Days in the general education classrooms with their peers focusing on the Leader in Me Habits, students have toured the classroom and reviewed expectations in various settings at school. They have also been busy learning new schedules and routines. Miss Pasker and I have been preparing for interventions and progress monitoring, along with ensuring proper accommodations and modifications. We are eager to enjoy another successful school year!

Many students have reading goals based on fluency rates (words correct per minute) on grade level reading passages. Other students have reading goals related to specific word skills, like correctly reading CVC (consonant vowel consonant) words. Similarly, students with math goals typically either have basic computation tests involving addition, subtraction, multiplication, or division appropriate for their grade

## ***Use of Recording Device Notice***

The Edgewood-Colesburg Community School District Board of Directors has authorized the use of recording devices on school premises and district buses. The recording devices will be used to monitor student behavior to maintain order and to promote and maintain a safe environment. Recordings of students in the classroom will also be used to improve educational practices. Students and parents are hereby notified that the content of the recording may be used in a student disciplinary proceeding. The content of the recording are confidential student records and will be retained with other student records. Recordings will only be retained if necessary for use in a student disciplinary proceeding or other matter as determined necessary by the administration. Parents may request to view the recording of their child if the recordings are used in a disciplinary proceeding involving their child. A parent may view the recordings without consent from any student or parent of a minor student also shown in the recording if the other students are bystanders. But if there is an altercation between multiple students, then all parents must give consent in order for the recordings to be viewed by parents.

level or concepts and applications probes, embedding computation into a variety of math skills, again often at grade level. Yet other students have goals related to behaviors displayed at school, promoting social skills and self-efficacy necessary for a successful school career and life beyond the school's walls. Regardless of their goals, all students are working hard to practice these activities daily with a growth mindset and graphing their progress monitoring scores every other week, following their IEP progress monitoring testing.

Buses leave the elementary at approximately 3:18; students who walk home or get picked up by parents are dismissed after that time. One of the things that teachers will focus on throughout this year is learning about appropriate interventions for students that are having difficulty learning new skills and/or concepts. This is called a Multi-Tiered System of Supports, where teachers find

different ways to help students learn. This is not really a new concept; just something that teacher learning will focus on this year.

If you have concerns or questions about your child's school performance, please contact the school staff involved. We are here to provide the best learning environment possible. Thank you for allowing us to educate your children this year. ### **Summer Improvements 2019 Edition**

Very similar to last summer there were many additional projects along with the usual summer deep cleaning that were or soon will be completed. Some of the projects are not noticeable from the outside.

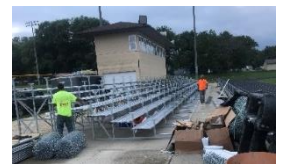

At the Elementary building there is new paint, and new flooring on the ramp to the gym, as well as a new parking lot currently being installed to the south of the school.

At the high school, the gym floor has been refinished, painting and new trophy display case by the entry of the gym, and the parking lot has been expanded significantly.

Handicapped accessible bleachers were installed at the baseball field and are being installed at the track/football field. The most involved project of the summer which most people will not notice are the HVAC and electrical upgrades at the secondary building.

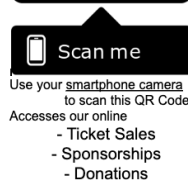

Currently the district is working with IIW, an architectural firm based in Dubuque, to design and bid out safety and security projects which will secure entrances at both buildings. The intent is to have those projects finished by the start of the 2020-21 school year.

Where is the new elementary playground? Last spring, a new piece of equipment was purchased to replace the main existing one. A grant was applied for but was not received for a few smaller pieces. The current soft tiles around and under the equipment needs to be replaced. This is a considerable expense, even more than the playground equipment itself.

These projects are funded by the voted Physical Plant and Equipment Levy (PPEL) and the State Penny for School Infrastructure also referred to as SAVE.

Thanks for supporting the vote to approve the PPEL and contacting legislators to extend SAVE. These funds will make additional improvements possible.

Mornings can be really crazy...the alarm doesn't go off...the kids don't want to get up...there's no time to eat breakfast before the bus comes...or they're just not ready to eat. Or maybe your teenager grabs a can of soda and a candy bar on the way to school. If this sounds like your house, we have good news for you.

Breakfast is served at school! School breakfast will energize your child's day and provide them with a healthy start. A nutritious breakfast helps students be more alert so they can learn more in class, and has plenty of vitamins and nutrients for a strong and healthy body.

Breakfast at school is affordable, too. The cost is only \$1.60. If you qualify for free and reduced price meals, you also qualify for the breakfast program, with no additional paperwork. You can't find a healthy breakfast at such a low cost anywhere else.

So help your child start the day right with school breakfast!
