Senior High School Curriculum

Code No. 603.1-R3

The comprehensive senior high school shall offer work in each of the subject fields listed for junior high schools, with the addition of driver education, but in each field there shall be a greater variety of courses and more specialized instruction. The specific courses shall include instruction in the subjects for college preparatory, comprehensive, and vocational career training approved from time to time by the Board of Directors.

Special curriculum guides shall be prepared whenever it is felt that such guides will be of assistance in the instructional program. These guides shall be designed to provide a consistent approach to instructional problems and to furnish information to available supplementary materials and related activities.

In all instances, the senior high school curriculum shall meet the educational requirements established by state statute and the State Department of Education.
