Community Education

Code No. 603.14

Because it recognizes that learning is a life-long activity, the Board of Directors supports the concept of community education. Because school facilities belong to the people, they will be made available whenever they are not being used for the district's regular program-day and night, year-round, including weekends and during school vacation-for educational, recreational, cultural, and other community services and programs for all age, ethnic, and socioeconomic groups residing in the community.
