NON-ATTENDANCE - INCLEMENT WEATHER
Code No. 405.10

Employee attendance shall not be required whenever student attendance is not required due to inclement weather or other emergency closings. This provision shall not relieve the employee from fulfilling his/her contract. The days missed may be made up during the school year at the discretion of the administration.

When students are dismissed for heat related weather, the employees will remain working in the district unless authorized to leave by the administration.
