

Ed-Co Alumni
Jacob Krieg
Written by Addy Kirby

A class of 2006 graduate and a worker of the trades, Jacob Krieg is doing things the Viking Way. After high school, Jacob attended Northeast Iowa Community College for Construction and HVAC. He currently resides near Edgewood and is a Ready-Mix Plant Equipment Manager. When asked why he decided to return to Edgewood he said, “I decided to move back to the family farm and the close-knit community that supports each other and is always there to help each other when in need.” Jacob got where he is today by, “I worked in the construction and HVAC field for 3 years post-college and decided to change career directions. I started driving a ready-mix truck for BARD Materials delivering concrete and took advantage of advancement opportunities within the company.” His favorite part about Ed-Co was the leadership skills he learned through FFA. Those skills have helped him advance in his career and taught him the skills necessary for managing projects and personnel. Jacob’s advice is, “Explore multiple directions for career paths and don’t be afraid to try new opportunities.” Jacob is a Viking for Life!
