

Ed-Co Alumni

Rebecca (Thein) Barry - Class of 2011

Written by Addy Kirby

Rebecca Thein, now Rebecca Barry graduated in the class of 2011. Following graduation she attended Clarke university for four years to earn her BSN. Rebecca now works as a registered nurse on a medical/surgical floor. Currently residing in Colesburg, she loves the tight knit community and being close to family while raising her own. When asked how she got where she is today she said, "I was a CNA throughout high school and loved helping people! I could never see myself in an office job and love constantly meeting and making connections with new people!" Rebecca's favorite part about Ed-Co was running cross country. She liked cross, because it has such a supportive atmosphere and teaches good work ethic. When asked what advice she would give to current Vikings she commented, "If you have a field you are interested in, definitely try to get experience ahead of time!"
