Shelby (Totman) Lamb - Class of 2003

Written by Addy Kirby

Shelby Lamb, formerly Shelby Totman, graduated in the class of 2003. When asked what she did after high school she replied, "I attended UNI in Cedar Falls for 4 years with a double major in Real Estate and Finance. I worked in the UNI dining center and Lincoln Savings Bank part time while finishing school. After graduating in 2007 I stayed full time at Lincoln Savings Bank until I had to start paying back student loans and was starving. In 2008, I started working for Transamerica in Retirement Production Support and have been there since." Shelby currently resides in Cedar Rapids. Shelby was always interested in budgeting and money planning, but always thought she would be more on the real estate side of things. However, that all changed when she found a job dealing with distributions from retirement plans at Transamerica. She thought it sounded really interesting, so she went for it, and she is so glad she did. Shelby currently works on the Production Support team writing SQL queries and researching and resolving issues. Shelby loves her job! The advice she would give to current high school graduates is, "Don't be afraid to adjust your career path or try something new. The career you think you want may change and that's ok!" This Viking completed something that not everyone can say they did, she found a job that does not feel like a job. Shelby is a Viking for life!
